

Container Gardening from Harvest to Holidays

with Heather O'Neill on Wed. Nov. 11

Designer Heather O'Neill of Second Nature Landscape Design demonstrated how to change the look of tubs, pots and window boxes to go from Harvest to the Holidays--- with samples of the Natural Look to the Glitzy Look. If you missed the talk, here are some ideas. If you were there- these will help you remember what kinds of plants and things she used. All our members should have snappy holiday planters this year!

Carol Seldin and Heather O'Neill.
